Requirement:

You need to have an account with google.

Steps:

1. Go to google.com, sign in using your credentials.

2. Register your project at the following site -
<https://code.google.com/apis/console/?api=shopping>.
You should get a unique Project Number.
3. Generate your new Key for the project by going to API Access tab.
4. Replace the {key} by the generated key in the following API and try test it on your browser:

-
<https://www.googleapis.com/shopping/search/v1/public/productskey=key&country=US&q=watch&alt=atom>

5. Update strings.xml file (SaveDollars / res / values / strings.xml)
6. Update <string name="key">key={Put your key}</string>
7. Test the code.
8. For more details read - https://developers.google.com/shopping-search/v1/getting_started
