# Installing Applications with Android SDK:

1.Download and install the Android SDK and Android USB Driver on the PC.

Follow Link

Android SDK: <http://developer.android.com/sdk/index.html>

USB Driver: <http://developer.android.com/sdk/win-usb.html>

2.On your Android Device, modify android settings to allow installation of applications from other sources.

- i. Click Settings->Applications->Enable 'Unknown Sources'.
- ii. Click Settings->SD Card->Phone Storage->activate 'Disable Use for USB storage'

3.Open Command prompt, type the following

```
adb install <path>/<filename>.apk
```

**Note:**

<path>: replace <path> to the path of your APK file(.apk file can be found in project folder->bin->filename.apk)

<filename>: replace <filename> with the name of the APK file. For instance, SaveDollars.apk

4.Now, the application is ready to use!
